

FOSCARINI

— More than lamps
pure emotions.

News

The Birdie family is getting bigger with the suspended version.

After the table, floor, ceiling and wall versions, [Birdie](#) is now also available in a new suspended version, with an extra flange with adjustable cables so that it can be positioned at the right height. 6 or 9 lacquered steel arms of different lengths support small white, grey, orange or amaranth diffusers, which light up like the small flames of a contemporary chandelier.

Behive, Colibrì and Maki exhibited in Udine

The [Behive](#), [Colibri](#) and [Maki](#) lamps by Foscarini have been selected by the ADI Design Index 2012. The publication presents the best Italian design that went into production last year, according to the ADI watchdog. About one hundred items stand out due to the innovation that goes into the production processes, the materials used and the formal synthesis achieved. This selection will be displayed at an exhibition in Udine, open until 15 August.

Inventario 7 on "Light and Movement" is on its way"

The free exploration of the world of creativity undertaken by [Inventario](#), the

independent editorial project conducted by Beppe Finessi, promoted and supported by Foscarini, is moving forwards. “Light and Movement” are the main theme of the seventh issue, which will be available in the best bookshops from July. As usual, the company will be present at the opening and closing with the interpretation of a world famous photographer. This time is Sanja Pupovac's turn.

Contract

Big Bang brings lightness and lots of personality into the company too.

Headquarters with a contemporary conception in Guatemala City, split onto three integrated levels alternating open space offices with areas for socialising and relaxation. Ten white [Big Bangs](#) light up the cafeteria on the top floor, giving personality and movement to an area with essential lines and light tones. A Foscarini best-seller that combines lightness with great visual impact.
